

# GUARDRAIL

## Warning panel

### YZWP-G2210

- Laminated stacking design saves space and facilitates transportation.
- Overall design, sturdy and practical.
- Roadblock lights can be installed on guardrails according to different needs.
- Light weight but stable product.
- This product has UV protection design.
- For road separation and construction site protection.
- Unique air leakage design can protect against strong winds.
- Unique 360-degree rotating guardrail connector, capable of connecting guardrails that rotate at different angles.

#### Dimensional information

Item	SIZE(mm)	Weight(KG)
guardrail	2200*1060*52 (L*H*D)	13
pedestal	690*395*65 (L*W*H)	16

## Warning panel

### YZQP-B1329

- It has good elasticity and is not easy to be crushed.
- High wear resistance, more durable use.
- It has good UV protection function.
- It is treated with special technology and has excellent weather resistance.
- Reflective film has high reflective performance and clear red and white color.
- Use stable, not easy to shake.

#### Dimensional information

Item	SIZE	Weight(KG)
board	1300*290*60m (H*W*D)	3
pedestal	690*395*65mm (L*W*H)	16

## Caution light

YZCL-3318

Product	Caution light
Color	yellow or red
Power	0.5W
Led(Qty)	2 pcs
Led luminance	≥8000MCD
Wave length	yellow light:590±5NM / red light:625±5NM
Ambient temperature	-40℃ ~+80℃
Visual distance	≥500M
Size (L*W)MM	330*185
Weight	0.35kg

## Site construction
